## Zir-Cast BruxZir

Drake Dental Labs' Zir-Cast is one of the strongest all-ceramic crowns ever created. It is designed and milled using CAD/CAM technology and the unique proprietary material is then highly glazed and polished making it more translucent.

BruxZir is a monolithic solid zirconia restoration with no porcelain overlay. BruxZir is virtually chip proof, making it ideal for bruxers, implant restorations and areas with limited occlusal space.

### HIPAA Unraveled

The Health Insurance Portability & Accountability Act of 1996 (HIPAA) originated in the early 1990s under the Bush Administration, as a group of healthcare industry leaders were called together to discuss how healthcare administration costs could be reduced. The conclusion was to increase the use of electronic data interchange (EDI) within the industry. Though signed into law on August 21, 1996, repeated delays in development of the draft rules prevented final adoption until late 2000.
